EDITORIAL

DEAR SHAREHOLDERS

Once again I am delighted to present this year's Annual Report. I am certain that you will be pleased to read about our Bank's continued excellent performance. Generous allocations to reserves and provisions will strengthen the net asset value of the Bank. The intrinsic value of your shares has also increased significantly. The proposed increase in dividend means that as a shareholder in Saanen Bank, you can enjoy an impressive return in the current interest-rate environment. Perhaps even more importantly, if you look back at our historical results you will see that the Saanen Bank share has experienced very stable, positive growth for decades.

At an international level, there was no major change in our operating conditions in 2019 compared with the previous year. There was an inauspicious start as Brexit remained unresolved, the trade war between the USA and China continued to simmer, and negotiations on the institutional agreement between Switzerland and the EU stalled. By the end of the year, increasing tension in the Middle East was adding to the situation. Nevertheless, the stock markets made huge advances, thanks in part to unchanged low interest rates. This environment did not exactly play into the hands of regional banks, with interest activities making up a large proportion of their business. Against this backdrop, our good annual result is even more gratifying. I would like to take this opportunity to thank the entire team at the Bank for their dedication and hard work over the past financial year.

The Board of Directors has collaborated intensively with the Executive Board in the 2019 financial year on developing and adopting the Bank's strategy for the period 2020 to 2025. Looking further ahead to the period 2025 to 2035, a separate workshop was held to develop a "radar" to ensure strategically important patterns and trends are not missed. We are fully aware that our scope of action, in particular in relation to technology, is limited. We are reliant on working together with other banks. However, where opportunities arise we pursue a clear, progressive

strategy from a position of strength, linked to investment in infrastructure and people. Saanen Bank has always greatly valued mutual trust and personal contact with its clients. The importance of trustworthiness will grow further in this rapidly changing, increasingly complex and more anonymous world.

On behalf of the Board of Directors, the Executive Board and all the staff, I would like to thank you, our shareholders and clients, for your loyalty to our Bank. I look forward to tackling our future together, with a modern, approachable and reliable Saanen Bank.

Yours faithfully

Victor Steimle

Chairman of the Board of Directors

QUESTIONS

INTERVIEW WITH VICTOR STEIMLE (CHAIRMAN OF THE BOARD OF DIRECTORS) AND JÜRG VON ALLMEN (CHIEF EXECUTIVE OFFICER)

The Board of Directors has worked with the Executive Board throughout the past year to develop the strategy for 2020 to 2025, making important decisions for the road ahead in the coming years.

> WHAT ARE THE MOST **ESSENTIAL ASPECTS** OF THE REVISED STRATEGY?

Victor Steimle (VSt): We are sticking with our successful business model and investing in our branch network because we believe it is the right thing to do. At all locations, all of our client-facing areas will be renovated and upgraded over the coming years. In addition, there will be an ATM at each location.

We are quite aware that many other banks are doing exactly the opposite, closing their branches. We believe that our clients value being close to the Bank and individual contact. So these are still sensible investments that will pay off in the next few years. It is not possible to predict today whether a bank will need a branch network in another 10 years' time. Nevertheless, we are convinced that, for the next few years, such a network provides the kind of added value that we want to offer, true to our slogan "Saanenland, where banking matters".

WHAT ARE THE SPECIFIC PLANS FOR THE FORMER SWISS POST OFFICE IN SAANEN?

Jürg von Allmen (JvA): As soon as Swiss Post has found a new location for its sorting office, we will overhaul the entire ground floor at our Head Office, including the former Swiss Post office. In particular, we want to expand our client area. There will be client adviser desks and private meeting rooms as well as an area containing several different ATMs that is open around the clock. We will continue to operate a cashier's desk - another example of our Bank bucking the trend so that we can be there for our clients. And we will also be creating new office space.

"We will continue to operate a cashier's desk - another example of our Bank bucking the trend so that we can be there for our clients."

IS THERE A DANGER OF MISSING OUT ON WHAT MAY BE KEY TRENDS AND **DEVELOPMENTS?**

VSt: We also brought in some external consultants to help us look forward to the period 2025 to 2035. With their insight we have created a "radar" that will support our ability to respond quickly to new trends and a changing environment. We will not be first movers when it comes to technology; rather, we and the other regional banks in the Esprit network will be fast followers, adopting the developments expected by our clients.

WHAT ADAPTATIONS WILL BE MADE TO PRODUCTS?

JvA: We are planning to completely overhaul our accounts and fees. This is part of the strategy. For example, we will offer a free account for clients who only want to use digital products such as e-banking. It remains our objective to ensure that clients who use our proven, efficient products do not have to pay higher fees wherever possible. Being a shareholder and client of our Bank should continue to be worth it.

"We are planning to completely overhaul our accounts and fees."

HOW WILL THE BANK'S ORGANISATION CHANGE?

JvA: The coming decade will see a number of long-serving employees at all levels retire. So we will invest in our people, with proactive succession planning to make sure that key posts are filled promptly and by qualified staff. As a regional bank, we will especially look to promote from within. Thus, there are opportunities for development for hard-working colleagues.

WHAT OTHER AREAS FOR **DEVELOPMENT DOES THE** BANK SEE IN SAANENLAND?

VSt: We want to remain the bank for Saanenland. As already explained, our desire to buck the trend is one of deeply held conviction. Other banks are starting to pull out of our region. We want to step up and plug the gaps, meet our clients' banking and financial needs across Saanenland. We believe that clients will appreciate our presence on the ground and that this strategy will pay off for the Bank.

Adrian Friedli Member of Executive Management Private Clients Branches

IN FOCUS

LAUENEN. GSTEIG AND SCHÖNRIED BRANCHES

As a regional bank, it is very important to us to be deeply embedded in the region, close to our clients and able to offer a good range of services tailored to their individual needs. Our branches in Saanen and Gstaad, as well as those in Lauenen, Gsteig and Schönried, allow us to live up to this commitment. All of the branches will continue to play an important role in the strategy of Saanen Bank. Saanen Bank will also invest in its Lauenen, Gsteig and Schönried branches over the next few years.

LAUENEN BRANCH

Elisabeth Brand

Elisabeth Brand has worked for Saanen Bank for some 30 years and runs our Lauenen branch. Alongside her role as a Saanen Bank Client Adviser, she also works for the Lauenen Tourist Office. In between exchanging money, receiving payment orders and providing individual advice to Saanen Bank's clients, Elisabeth Brand also welcomes guests to the region at her desk, selling cross-country ski passes and hiking maps, and supporting the village administration.

Elisabeth Brand is due to retire in December 2020. But closing the branch would be unthinkable. Saanen Bank's contact with villagers and guests in Lauenen is too important to give up. The branch is being renovated and upgraded with a range of investments. In future, an ATM will cater day and night for the most commonly needed services such as cash withdrawals and deposits.

"We will install an ATM in Lauenen and Gsteig."

GSTEIG BRANCH

Hauswirth

In our Gsteig branch, Saanen Bank can also count on a long-serving employee. Kathrin Hauswirth has run the Saanen Bank operation and the Tourist Office in the heart of Gsteig for almost 20 years. The cooperation between Gstaad Saanenland Tourismus and Saanen Bank opens up many benefits, especially when it comes to cost savings. While other banks in the region are closing branches, we want to continue investing.

An ATM will also be accessible around the clock in Gsteig. With Kathrin Hauswirth as Branch Manager on site, this is an ideal set-up to allow our clients continued access to comprehensive services in their own village.

The Schönried branch of Saanen Bank is operated by Sibylle Fahrer and Madeleine Zahler. When the Berner Kantonalbank (BEKB) branch closed, Saanen Bank purchased the newly available office area. Over the coming months, as part of the redesign of Saanen Bank's branches in Gsteig, Lauenen and Saanen, we will investigate how to make best use of the additional space.

In autumn 2019, new ATMs have already been installed in Schönried and in Saanenmöser. Our analysis of the initial usage patterns shows just how important these machines are to our clients and visitors alike.

However, it is also clear that Saanen Bank wants its presence in Schönried to offer more than just an ATM.

Sibylle Fahrer and Madeleine Zahler will continue to serve the individual needs and concerns of our clients there in future.

We are investing in the future and in our branches, so that we can carry on supporting all aspects of financial life, and be as close to our clients as possible.
